Youth (Hockey5s) Competition

YAY...Hockey5s for our youth teams are up and running! Titans have entered 3 minis teams and 2 junior teams. There are a total of 15 youth teams participating so Titans alone covers a third of the entire competition! WOW.

Meet our Minis' Teams

Titans 19, Titans Stars and Titans United are our 3 minis teams who are all actively competing and enjoying the hockey matches played on Thursdays.

They have started in full force with an undefeated record by all 3 teams on the matches played so far.

Titans United is our latest inclusion in youth competition where we have now introduced boys to the club. This team is gender balanced and has already shown signs of greatness.

Meet our Junior Teams

In the Junior category we have Titans Blue and Titans Grey. Both these teams possess an incredible level of skill and pace.

Junior matches can be way more challenging in this category as we start to see players combining their technical and tactical skills.

We're fresh out of female kits

The huge recruitment of female players has most certainly exceeded our expectations, to the point where we have had to order a further batch of 12 kits, catering now for a total of 72 female players.

Domestic competitions are GO!

All our playing members are now actively competing in domestic competitions. With a total of 5 Hockey5s teams and 2 senior teams, we can officially say GOOOO TITANS!

Equipment for our Grassroots

Our little ones keep growing in numbers and for this we have purchased more sticks and balls to enable more to join.

Short-corner equipment

The 11 a-side competition is due to start in January and for this we have already procured the necessary protective equipment for our senior male and female team.

With the equipment already available, our brave short-corner players will be able to practice their defence in a safe manner.

Goalkeeping equipment

With a further 2 new full senior kits now available, our training sessions become more interesting and challenging.

Although we still need to purchase a couple junior goalkeeping kits, the club can now deliver dedicated sessions to our keepers.

QR Code

For quick access to our website, the club has created a QR Code which will be used in all future marketing platforms directing you to our website.

Junior Leadership Award

This programme is now up and running. Our members have had their first session where they have received induction to set them off into a challenging yet rewarding road to personal development.
